Welcome

Robmeg Steel was established in February 2002 as a steel service centre focused on supplying steel-related products to the manufacturing industry. Over the years, thanks to our team's extensive knowledge and dedication, we have grown into a recognised leader in the manufacture of steel and aluminium windows, doors, and garage doors.

Our growth has been built on the pillars of **quality, innovation, and service excellence**. We are committed to delivering products that are efficient, reliable, and cost-effective. Our team's technical expertise and focus on continuous improvement ensure that every product we manufacture meets high standards of craftsmanship and performance.

As a family-run business, we prioritise a culture of equality, compassion, and respect in the workplace. This has created a supportive environment where our staff feel valued and empowered, resulting in a cohesive and motivated team. That same care and attention to detail is extended to our customers, with service that is both personal and professional.

Innovation is a cornerstone of our company philosophy. We are proud to be at the forefront of design and engineering in our industry, continually refining our product offerings to suit modern needs and preferences. One of our most notable innovations is Jumatrell – Security that Fits. This range of security doors and burglar bars features a unique telescopic fit, offering a seamless and secure solution tailored to each space. It's practical, stylish, and exceptionally secure—everything you'd expect from a Robmeg Steel product.

We are proud to offer a wide and versatile range of products, including:

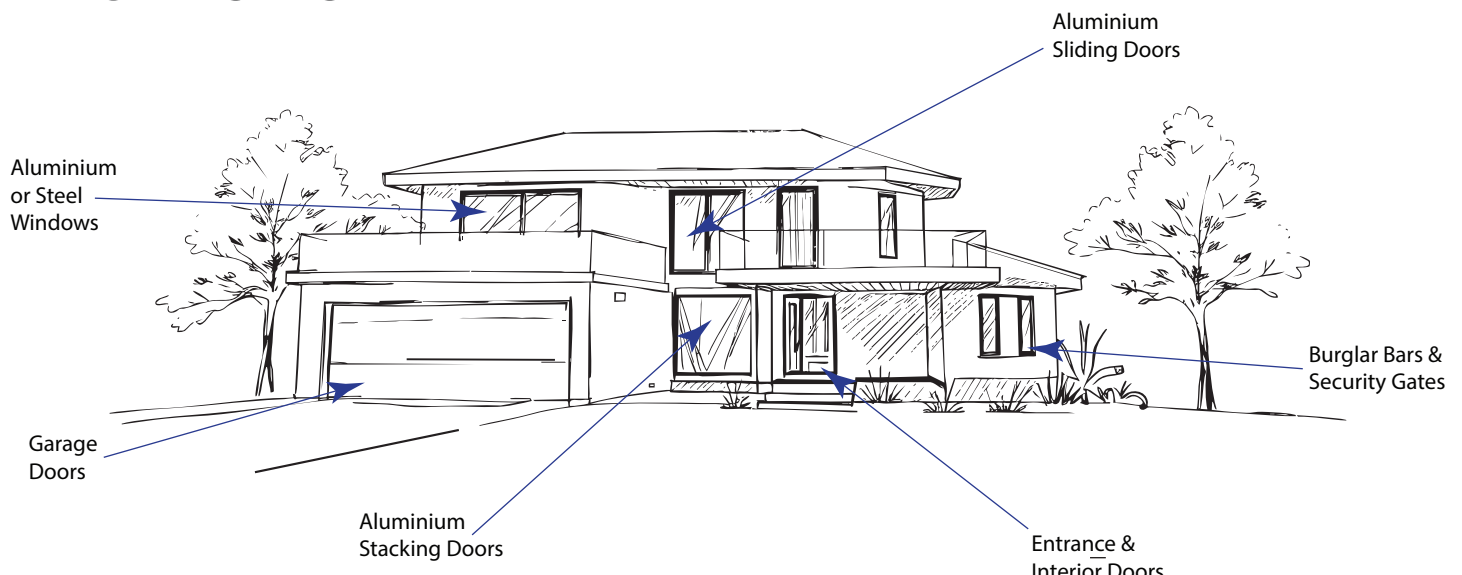

- **Aluminium Windows and Doors** – Sleek, durable, and low-maintenance options ideal for residential or commercial applications.
- **Sliding and Folding Doors** – Space-saving solutions that create seamless indoor-outdoor flow.
- **Metal Windows and Doors** – Strong and secure, designed for performance and longevity.
- **Garage Doors** – Including sectional garage doors, combining aesthetics and functionality to enhance any property.
- **Jumatrell Security Doors & Burglar Bars** – Featuring our innovative telescopic fit for tailored, high-security solutions.

Each product is manufactured with a focus on longevity, safety, and design appeal. Our aluminium options offer a clean, modern look with excellent weather resistance, while our steel products are engineered for robustness and protection. Whether you're upgrading your home, enhancing your business premises, or securing your property, we offer tailored solutions that meet your needs.

At Robmeg Steel, our aim is simple: to deliver **reliable, high-quality products** that add value to your space. With over two decades of industry expertise, a reputation for service, and a passion for innovation, we are your trusted partner in steel, aluminium, and security solutions.

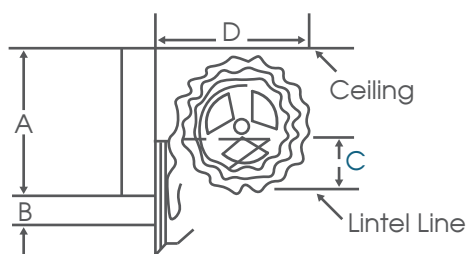

Let Robmeg Steel be your first choice for **strength, security, and style**.

alu lux™

Raised & Fielded

The Alu-Lux™ and Bellmore™ garage doors, proudly crafted in South Africa, are meticulously manufactured and assembled right here. The design is tailor-made to withstand the challenging weather conditions commonly experienced in coastal regions. By choosing our garage doors, you not only gain peace of mind but also enjoy unparalleled quality that surpasses expectations.

Horizontal Garage Door

For many years, Super Doors has established itself as the premier producer of garage doors in South Africa. We are committed to providing you with the utmost excellence in cutting-edge designs, superior quality, top-notch safety features, and a wide range of options. Our renowned Alu-Lux™ and Bellmore™ garage doors, crafted exclusively from the acclaimed Aluzinc material, guarantee that you receive nothing but the finest product available.

Finger Shield™

The side view of the pinch prevention patented panels, indicates the design innovation that will protect you and your family from serious hand or finger injuries. Together with this unique safety feature, it also has a higher than normal overlapping joint which seals each panel into the next. This prevents dust and rain penetrating the building.

Double Strength Intermediates & End Caps

Double lipped intermediate struts allow for double the glued surface. Larger glued surfaces, which consist of a polyurethane high modulus glue, has proven to be the best in adhering metal to metal, ensuring a 50% stronger bond.

The boxes end caps being fixed on both sides stabilizes the panel, preventing flexing and allows for stronger and more secure fixing of hinges and other hardware.

Properly fixed hinges ensure a smoother and quieter functioning door.

Super Drive SD-600N/SD-1000N Garage Door Openers

The garage door is usually the most used door in a home. The choice of a reliable and safe garage door opener is paramount.

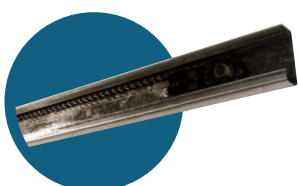

With smooth quiet operation with minimal transmitted vibration, the Super Drive™ motors are ideal for homes with living rooms close to the garage. The opener ensures a flexible soft start and stop during the end of the travel cycle, resulting in a reduction of speed and noise. The opener also comes standard with automatic obstacle detection.

For added security, rolling code technology prevents the 'stealing of codes' as this means a brand new code is generated every time the opener is used, keeping your family and belongings safe and secure.

Features

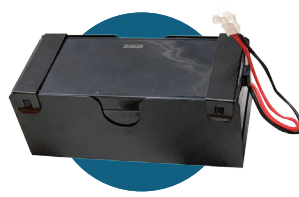

- 600/1000 Newton's Force
- Silent Operation
- Soft Start & Soft Stop
- Obstacle Detection Function
- Accurate Electronic Limits
