

Welcome

Robmeg Steel was established in February 2002 as a steel service centre focused on supplying steel-related products to the manufacturing industry. Over the years, thanks to our team's extensive knowledge and dedication, we have grown into a recognised leader in the manufacture of steel and aluminium windows, doors, and garage doors.

Our growth has been built on the pillars of **quality, innovation, and service excellence**. We are committed to delivering products that are efficient, reliable, and cost-effective. Our team's technical expertise and focus on continuous improvement ensure that every product we manufacture meets high standards of craftsmanship and performance.

As a family-run business, we prioritise a culture of equality, compassion, and respect in the workplace. This has created a supportive environment where our staff feel valued and empowered, resulting in a cohesive and motivated team. That same care and attention to detail is extended to our customers, with service that is both personal and professional.

Innovation is a cornerstone of our company philosophy. We are proud to be at the forefront of design and engineering in our industry, continually refining our product offerings to suit modern needs and preferences. One of our most notable innovations is Jumatrell – Security that Fits. This range of security doors and burglar bars features a unique telescopic fit, offering a seamless and secure solution tailored to each space. It's practical, stylish, and exceptionally secure—everything you'd expect from a Robmeg Steel product.

We are proud to offer a wide and versatile range of products, including:

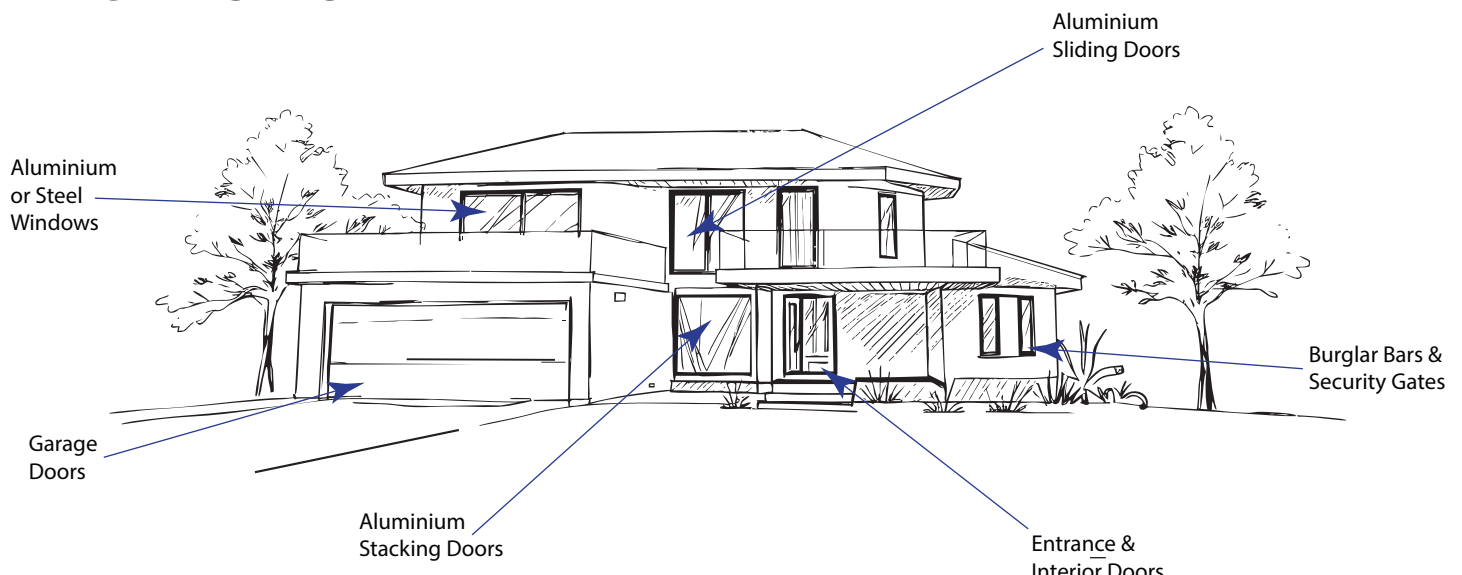

- **Aluminium Windows and Doors** – Sleek, durable, and low-maintenance options ideal for residential or commercial applications.
- **Sliding and Folding Doors** – Space-saving solutions that create seamless indoor-outdoor flow.
- **Metal Windows and Doors** – Strong and secure, designed for performance and longevity.
- **Garage Doors** – Including sectional garage doors, combining aesthetics and functionality to enhance any property.
- **Jumatrell Security Doors & Burglar Bars** – Featuring our innovative telescopic fit for tailored, high-security solutions.

Each product is manufactured with a focus on longevity, safety, and design appeal. Our aluminium options offer a clean, modern look with excellent weather resistance, while our steel products are engineered for robustness and protection. Whether you're upgrading your home, enhancing your business premises, or securing your property, we offer tailored solutions that meet your needs.

At Robmeg Steel, our aim is simple: to deliver **reliable, high-quality products** that add value to your space. With over two decades of industry expertise, a reputation for service, and a passion for innovation, we are your trusted partner in steel, aluminium, and security solutions.

Let Robmeg Steel be your first choice for **strength, security, and style**.

What We Do

Aluminium Product Range

We are excited to introduce our range of high-quality aluminium products, which includes a variety of windows and doors.

Our aluminium windows are available in both top and side hung configurations, providing versatile options to suit your specific needs.

Our aluminium doors are designed to be both stylish and functional, offering excellent security and energy efficiency.

For those looking to create a seamless transition between indoor and outdoor spaces, our aluminium sliding doors are an excellent choice. They provide a modern and elegant look while allowing natural light to flood into your home or business.

Our aluminium stacking doors are a fantastic solution for those who want to maximise space and create an open and inviting atmosphere. These doors are easy to operate and can be customised to fit any size opening.

At our company, we take great pride in providing our customers with a wide range of high-quality aluminium products.

We believe that our extensive product range reflects our commitment to excellence and our desire to meet our customers' unique needs.

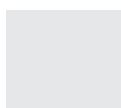

All our windows and doors are manufactured to standard industry sizes with a size tolerance between -2mm and +2mm.

When measuring and placing orders the sizes should be based on the openings as viewed from the outside of the area.

For protection and quality, the products are delivered wrapped to protect against building debris and mess such as cement, plaster, paint, etc.

We recommend only removing the wrapping once all building and painting is complete.

Aluminium Windows

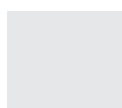

Aluminium windows are extremely durable and resistant to harsh weather conditions.

They have a high corrosion resistance and will not swell, crack, split or warp over time.

Aluminium frames boast a superior lifespan compared to most other materials and require little maintenance.

Aluminium is 100% recyclable, non-toxic and completely sustainable. The recycling process of aluminium requires only 5% of the initial energy required to create it.
